***HOW TO USE
SAFELY?***

Tips and suggestions

Always have private profiles on Social Media.

Limiting personal information/data on Social Media.

Do not accept friends or followers from unknown people.

Pay attention to photos and videos posted on the Internet

Profiles are private, but the Internet is public. From the moment you put a photo, a video, a comment on the Internet, it's there forever.

Warn against sharing personal/intimate photos and videos

Once they have been sent, the recipient can do whatever they want with them.

Online Conversations

Warn people not to answer to unknown messages or those asking for personal information. Block or Report such users.

Keeping personal data and information private or blocked on Social Networks.

Social Engineering uses this type of data.

Fake Profiles

Inform that they exist, and that it is very difficult to recognise. Therefore, only accept as followers people you really know.

Virtual Harassment/Grooming

Explain to young people that the Internet and social networks can be used for malicious people to get in touch to access their image by sending photos.

Social networks are not a diary

You don't have to post everything you do on a daily basis.

Encourage your child to talk to you

if something happens on the Internet that bothers him/her.

Check the Social media Privacy Settings with your child.

ACTIVITY:

Reflection and discussion on each of the videos

O objetivo desta atividade é proporcionar recursos que permitam uma reflexão sobre o tema Redes Sociais.
